

**PRODUCT INFORMATION**

# CEVO-process J-4419

## Product Description

CEVO-process J-4419 is a patented organic acid wax, based on renewable plant waxes. It combines in an ideal manner the characteristics of a multi-purpose plastics additive with the call for bio-based raw materials. It is therefore also perfectly suitable for thermoplastic polymers, that are derived from renewable resources. CEVO-process J-4419 mainly consists of natural long-chain fatty acids (mainly C19 – C32) that have been processed by an innovative technology to give a bio-based polymer additive that meets the highest standards in the polymer industry.

## General Advantages

High effectiveness at low concentrations: CEVO-process J-4419 is suitable for a wide range of plastics applications, mainly as external release agent, dispersing agent, gloss booster and surface improver. CEVO-process J-4419 is suitable for engineering plastics, thermosets, etc.

## Examples of Use

- Thermoplastics: ABS and copolymers
- Thermosets: epoxy resins, phenolic resins
- Dispersing agents for colour masterbatches

## Delivery Specifications \*

Characteristics	Unit	Target value	Method
Acid value *	mg KOH/g	135 – 170	ISO 2114
Drop point *	°C	78 – 85	ASTM 3954
Colour	–	pale yellow	AA 3.2.1.505

## Packaging and Handling

Physical form	Flakes or powder
Packaging	Paper bag or Big Bag
Storage	Store at ambient temperature on a dry place. Protect from heat/overheating and direct sunlight. The minimum remaining period is 1.5 years and is defined as the minimum shelf life at the customer. Thereafter, tests of the chemical characteristics are recommended. The maximum shelf life of 5 years is indicated.

## Safety

CEVO-process J-4419

- is made from a renewable biological source
- reached the criteria for inherent biodegradability (OECD Guideline 301 D, Closed Bottle Test)
- is not classified as carcinogenic, mutagenic or reprotoxic; no health or environmental hazards are known, provided it is applied in industrial and professional settings

## Delivery Time and Availability

Standard delivery time: 2 – 3 weeks. Preconditions can be met for achieving shorter delivery times on standard products when demanded by the market. Remark: Voelpker's R&D department is permanently developing new special wax blends. Please contact us for your individual requirements.

## Legislation

Food contact legislation:

- Product for technical applications

Other legislation:

- bio-based (100 %)
- REACH, RoHS and CONEG compliant
- TSCA (USA) and DSL (Canada): listed
